

**CLIENT:** OCTO Telematics

**LOCATION:** Lombard Street, EC2, London

**SIZE:** 6,989 SQ FT - 649 SQ M

**TYPE OF PROJECT:** Design & Management

OCTO Telematics turn driving data into analytics solutions that are transforming the insurance industry. Their technology captures and analyses behavioural, contextual and driving data to provide innovative solutions for their partners, and is powered by the largest telematics database in the world.

### Project Overview:

OCTO Telematics approached Rapport Solutions late 2015 to manage and deliver their new Global Head Quarters based in the City of London.

The brief, to accommodate 70 staff within a contemporary environment that reflected the ethos of this visionary business. Our design revolved around OCTO's branding and logo design. On entering the 8<sup>th</sup> floor, visitors are greeted with a beautiful reception desk, a bespoke circular ceiling and the latest technology in audio wall systems. The conference room stunning 22 person board table has been handcrafted in American oak with credenza's to match.

Surround sound video conferencing for connection to OCTO's world partners.

Every detail has been thought through to encourage collaborative communication from the front of house through to the open plan workspace and full height glazed offices. An impressive tea point and bar creates juxtaposition between new technology and a restful chill out facility.
