

**CLIENT:** FISH FINANCIAL  
**LOCATION:** 2<sup>nd</sup> Floor Gostrey House, Farnham, Surrey  
**SIZE:** 4,500 SQ FT  
**BUILD VALUE:** £118,500.00  
**PROJECT:** Design, Management & Cost Control

Fish Financial is a fast-growing IFA practice with offices in Farnham and London. They create and protect wealth investments for both individual and corporate clients.

Having grown and developed the brand, Fish Financial called upon Rapport Solutions to manage and deliver a flexible workspace to support their dynamic culture and collaborative working environment.

**PROJECT OVERVIEW:**

Working closely with our clients' management team, we developed design material, detailed works specifications and cost options. Key elements of the design reflect Fish Financials professional status.

Our designed solutions created an abundance of individual and team workspaces alongside flexible meeting and collaboration areas for both staff and clients.

- The boardroom and client meeting room's share connectivity via a Barco Click system and video conferencing solution via an intuitive touch screen interface.
- An installed room booking system integrates touch panel connections to both Microsoft and Google systems enabling reservations directly from the workstation, on the app, or the spot.

**SITE WORKS** – Removal of existing internal works, mechanical, electrical and lighting upgrades., fit-out works delivered within a staged 8-week on-site programme. The final design includes a 2m x 3m fish tank in reception, LED displays into meeting rooms, wireless connectivity via a Barco Click Share system and a Creston Mercury solution providing UC and AV all-in-one table-top solutions.

**Design:** Cathy Perkins
